

NORWICH UNIVERSITY.

Plans Being Laid to Hold a Winter Tournament.

The authorities and cadets of Norwich university are planning to hold a winter tournament sometime this winter. No other college in New England has a more ideal location for such an event than Norwich. There are plenty of hills of all degrees of grade and length, a surplus of snow, and several basins which could be made into good skating rinks. Every year there are a great many cadets who spend most of their time which they have to spare during the winter on snowshoes or skis. Hockey is also a favorite sport. The plan is to put all this latent ability and enthusiasm to a good purpose and have a tournament which will make Norwich known throughout New England as the college where winter sports receive their due attention. At Norwich, as at many other colleges, the winter months are on the whole rather a hard grind. Lecture courses, glee club entertainments, etc., given things to quite a degree, but outdoor life is needed to keep mind and heart active and contented. This tournament with the practice it necessitates, should fill a big gap in life at Norwich. There will then be things of interest to the sportsman between the time of the Norwich-University of Vermont football game in the fall and the first crack of bat on the ball in the spring.

Colonel Reeves was in New York Monday in the interests of the university. While there he had a conference with Gen. Leonard A. Wood's aide, Gen. Wood himself being delayed out of town. Gen. Wood is a very enthusiastic friend of Norwich university. He and Col. Roosevelt are both actively associated with the efforts of the Rough Riders in procuring funds for a new riding hall at Norwich.

Quite a number of cadets and members of the faculty attended the New England football show at Montpelier Thursday afternoon. The midnight train to the south was over six hours late and some of the cadets arrived home just in time to attend their classes Friday morning.

Colonel Reeves and Maj. Frank Tompkins were speakers at the banquet of the Military Order of Foreign Wars held at the Country club in Montpelier Thursday evening.

Several from here are planning to attend the Middlebury-Vermont football game at Burlington Saturday. A great deal depends upon the outcome of this game. If Middlebury wins she will be champion of the state, with Norwich second and U. V. M. last. If Vermont wins there will be no decision, for Middlebury has already beaten Norwich and Norwich won from Vermont last Saturday.

The train comes, the station is surrounded, the sheriff's flashlight and revolver are in position, when the station agent suddenly remembers a calf has been left in the freight room over night, which caused the noise. The train pulls out, bearing the watchful citizen, and the sheriff, station agent and calf retire.

Brown was recently the subject of litigation in the Vermont supreme court, when Plymouth, his native town, sued Mount Holly for a poor account, Plymouth winning and the high court estimating that Brown was a resident of Cavendish. It is claimed in the present suit that Brown established residence in Cavendish because he worked on the F. H. Wheeler farm there for three consecutive years. The case is of a great deal of importance to the defendant town because a decision against it would mean Brown's support for the rest of his life, in addition to payment of the bill which dates back to 1912.

Real estate owners, now open your eyes, investigate, study, and then become wise, to the fact that

Bishopric Wall Board

is better than lath and plaster, saves 40 per cent, in construction, renders 100 per cent, in service. Any weather is good building weather when you use Bishopric Wall Board and Sheathing. Bishopric Roofing is self-protecting and requires no paint.

It beats all other kinds of roofing that's made. And those who have tried it all seem to agree it drives everything else away into the shade of the elm or the old apple tree.

For your buildings the Bishopric roofing is best. It will stand the severest racket. It's used in the North, the South, East and the West. And there's thousands of dollars to back it.
